DRC INSIGHT™

Reporting Services - GA Semi-Customized Administration

GA-Specific Administration Overview

- DRC is launching a Georgia-specific administration
- A new administration means:
  - DRC has created a semi customized solution fully aligned with Math GA Standards and Reporting Categories (2024)
    - This reporting UI is in DRC INSIGHT > My Applications > Reporting Services
    - The new reports will contain existing data elements and enhanced user functionality
  - The new GA-specific DRC BEACON admin is brand new for Math forms through scoring to reporting
    - While the ELA forms are not being updated this year, a new admin does result in new scoring and reporting setup to move ELA to a new admin
  - The new administration includes DRC BEACON Early Years for Grades K-3
  - A new administration will re-set longitudinal data throughout Group Results and reports will be available staggered in 24-25 as the data for each assessment is available
  - Previous user data will be available in the DRC BEACON administration under DRC INSIGHT > My Applications > Interactive Reports

Reporting Services Overview

What is the Reporting Services UI?

Reporting Services UI represents a comprehensive upgrade affecting every element of DRC's reporting system:

- Enhanced site performance, improving data loading times and visual renderings
- New layout, capabilities, and features to simplify navigation and access to reports
- Expanded reporting template options
- Flexible and repeatable reporting templates (to accommodate Math work in 2024 and ELA work in 2025)

School Year 2024-2025
Delivery Schedule for GA-Beacon Specific Reports

- A delivery schedule for the new reports was constructed to roll out reports as new data is accumulated
- The initial August focus is on the roster and individual student reports
- These include the new DRC BEACON Early Years ELA, Math, K-3 FOLA elements and new 3-8 Math reporting categories
- Grades 3-8 Learning Progression/Student Dashboard is scheduled for the end of August
- Reports that require longitudinal data will be added throughout the year
- The grades 3-8 reporting categories will be updated for school year 2025-2026

Group Results Report Use Case

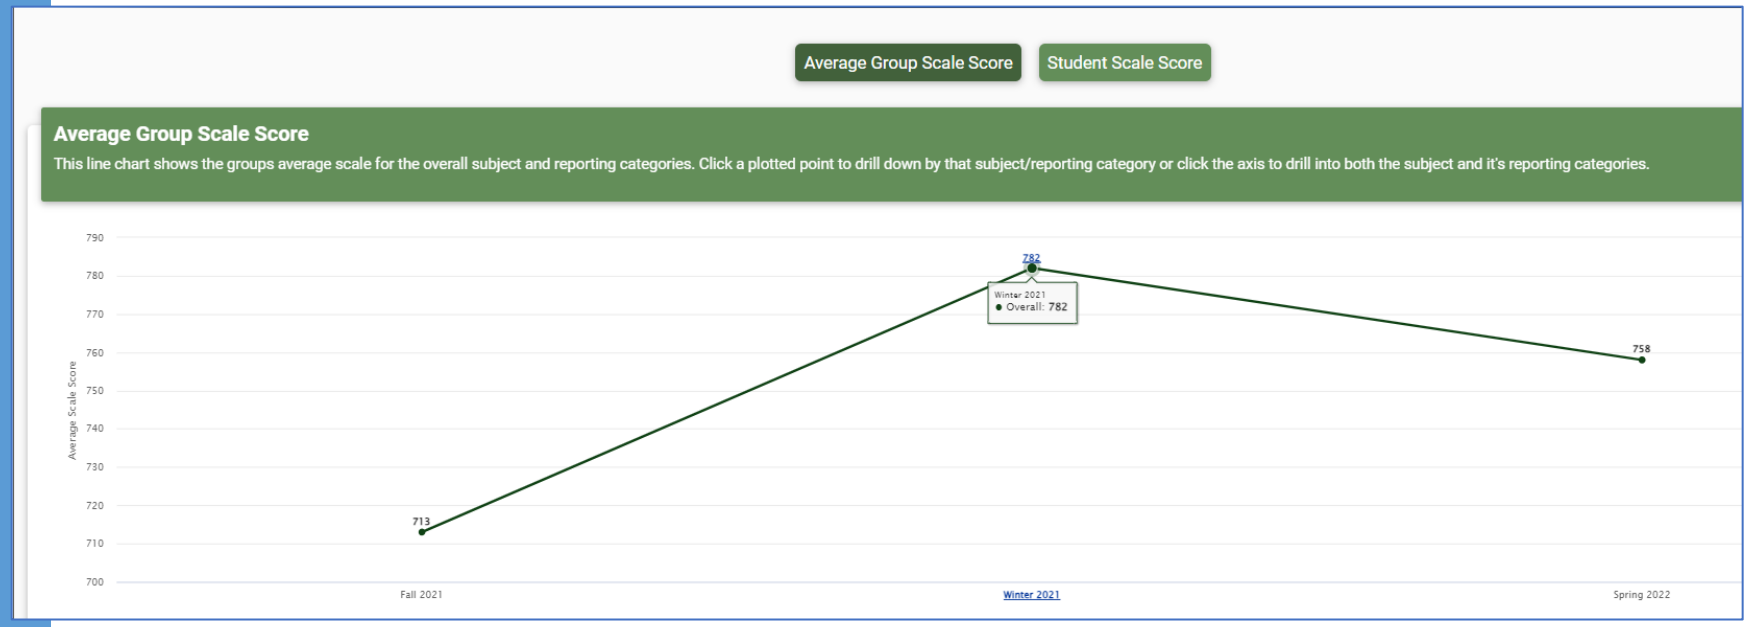
I am…I want	Report Name (s)	Key Data or Needs	"So What" Uses
I am an educator trying to understand how their student compares to their peers or I am a classroom educator or administrator trying to understand the performance of a group or groups	Group Performance	Need scale scores over time, at the subject and the reporting category level, for both the student and the reference group (student's school)	If sharing, a teacher can also provide this information in "round" terms – e.g., XX number of students in the same performance area as your student or focus on the growth of that student over comparisons

Group Performance – Average Group Scale Score

Group Performance and Group Learning Progression combined into one report (Nov 2024)

Focus is on overall average group scale score for the overall subject and reporting categories.

Users will be able to drill down by reporting category



Group Performance – Student Scale Score

Chart that shows scale score for each student by the most recent data compared with a date backward in time from the most recent. Includes drill down into student dashboard.

Group Growth Use Case

I am…I want	Report Name (s)	Key Data or Needs	"So What" Uses
I am an educator or principal who administered DRC BEACON this fall. How can I compare my students group growth from one assessment to another?	Group Growth	Need results over time	Users will be able to see growth from one assessment to another within a student group or district

Group Growth

Scale Score Growth, Growth Adequacy, and a Growth Table buttons (Feb / March 2025)

Users will drill down from a Season to Sample District to School to Student Group
